DRAFT - Selection

written by Max

MF, Mdom, Fist, Dildo, Stretch, Large Toys, Piercings, Anal,
Bestiality, Tattoos

She will be of average to petite build, her hair colour not important as long as it is clean and well kept. Tattoos and piercings are acceptable, though a clean slate is preferable. Any facial piercings will be removed, and all tattoos must be located so they can be concealed by regular business attire.

Her initial training will include acting as a personal assistant 24 hours a day. Basic tasks for maintaining the household as well as specific tasks associated with business and personal obligations will be assigned. She will have a six month trial period, after which she will be given the option of leaving or committing to longer term development. The measure of her aptitude for completion of assignments as well as organisation will be weighed in assignment of additional specific occupational training.

At the same time she will be provided with access to tanning, health club, and other physical development resources. She will also be

provided with access to literature, books, manuals, and raw materials for creative projects. The measure of her utilisation and development of these resources will also be weighed in determining the breadth of her role over time.

Should an advancement following the six month trial be offered, the following additional requirements will be made of her.

She will be expected to adopt the appropriate vocabulary for her sexuality with her employer - i.e. cunt, ass, tits. The measure of the extent of her acceptance of this vocabulary, embellishments upon it, and determination of the appropriate audience for using it will be considered carefully.

She will use any means necessary to permanently enlarge her cunt so objects as wide as her pelvis bone allows can be inserted into it at any time. Upon request both resources and personal assistance will be made available. Her approach, consistency, utilisation of aid, and achievements will be weighed out against both her inclination and time allowed for completion. If she is disinclined then her limited achievements may be balanced by alternate capabilities she provides.

She will stretch and extend her labia down her thighs to a distance no less than five inches. The labia will be clipped garter belt style to both stockings and weights on request. If so inclined then piercings of her labia will be made - using tunnels rather than barbells - and thus allowing for slight mitigation of her cunt's enlargement due to the healing time and extreme nature of the piercings.

She will regularly penetrate her ass with increasingly larger objects until she has developed the ability to fist her own ass. If disinclined from such anal development then a strong alternative must be offered in its place. Engaging in frequent canine intercourse would be an acceptable alternative. If inclined toward further anal development then resources for regular and substantial stretching will be made available based on a plan and approach of her own choosing.

She will be provided with the option of breast augmentation to the largest size her frame allows, or nipple piercings and nipple development to achieve the longest nipples possible. Both options are of equal weighting though the augmentation will require a longer period of healing and the piercings may be rejected so steady progress over time is appropriate.

She will be tattooed in three places. Under her right breast a thumb-sized sigil will be inked. Along her right labia another marking will be placed indicating her openness (an oval with real measurements). Inside her right ass cheek another marking will be made indicating her openness (a fist or lesser image as appropriate combined with a canine as appropriate).

She will learn how to pleasure other women including gentle, rough, and specific ministrations. She will develop competence in fisting, wielding a strap on, and developing the cunts and asses of other women. Her success in both ministering to other women and developing their appetite for training and development akin to her own will be measured.

She will receive career training aligned with the aptitude demonstrated in her first six months.

She will regularly demonstrate - through documentation, photography, and video - her progress over the next 24 months.

At the end of 24 months, she will be given the option to pursue one of three paths:

- Total transition into sexuality
- Further developing her body while practicing her career
- Leaving the household to pursue career and development of other women

If she chooses sexuality then her needs and most of her wants will be provided in exchange for transforming herself into a person dedicated to receiving and giving sexual pleasures to individuals selected for her. Her body will be further developed and taken to the extrapolated extremes desired by herself and her employer - for example equine sex, continual penetration, further piercings and tattoo decorations of the body and specifically the genitalia, psychological development of sexual appetites.

If she chooses further development while practicing her career then she will be expected to provide for her needs and some wants while more advanced physical and mental training is provided to develop her interests sexually and sensually.

If she chooses to leave the household then three changes will be made before her independence is granted. Her labia will be tattooed with the household name on one and 'slut' on the other. The mouth of her cunt will be modified with her choice of either the surgical implantation of a permanent steel ring that will never allow her cunt to close, or the surgical insertion of a steel ring that will never allow her cunt to be penetrated by anything larger than a finger. Her right buttock will be marked with an oval that is the width and height of largest object her cunt ever took, and her left buttock will be marked with an oval that is the width and height of largest object her ass ever took. The depth of the object will be marked in inches in the center of the ovals. In addition a figure for each species of animal she fucked will be inked above her cunt on her lower abdomen.
