-----

Anna Lynn was born in the middle class section of Cincinnati, went to high school and was on her way to a college degree when her parents were killed in a car wreck leaving her with no family and no support except her wits. She had lost her virginity at sixteen and learned to enjoy sex; sex with anyone even the occasional women although she was in no way a lesbian. Her preference was definitely men. So suddenly needing funds, she turned to the thing she liked and did best sex. Anna tried nude dancing for a while and did OK but the competition was fierce. The other girls had much better figures making it hard for Anna to keep a job so she turned to prostitution. She did this until she finished college, getting her degree in the arts. This was not a great area to get a good job in and Anna found she still could make far more with her body than any regular job she could get.

For twelve years Anna bounced from city to city plying the world's oldest trade. In all this time many men tried to make her part of their stable but she always escaped usually to another city. In all this time, Anna managed to escape drugs and alcohol. So she came to be walking down the street in a large southern city on the lookout for a new client.

Charles Henry, a man of some considerable means in this early seventies was in his chauffeured limo driving by when he spotted Anna. Now Charles was a man who loved sex. Time had robbed him of a lot of his libido but none of his interest. He considered himself an expert on the subject, especially if it was kinky.

Charles had his driver stop and invite Anna in, she accepted with joy and anticipation. Once in the limo, Anna and Charles got acquainted quickly. The limo was large and blacked out so Charles and Anna soon had their clothes off and were exploring each other. Charles told Anna that he had trouble getting and keeping an erection but it took no time for Anna to get him up, although not too hard. She then took him into her vagina and soon brought him to a climax. Charles didn't even get completely hard but he came powerfully. This was something few women could do. Charles immediately decided he did not want to lose this girl.

It seems Anna was living in a small but nice apartment on the north side of town but the flat was leased starting in about a month and she would have to move. This was the opening Charles wanted. He offered to take Anna to his estate to live. The deal was that Anna could live there, have the use of a car and have all her expenses paid, in return, she was to essentially be Charles' sex slave. She would agree to do whatever he asked and with whom ever he asked. There was an out, Anna could leave at any time but if she did, she could not come back.

Charles gave Anna a week to think it over but it took only a couple of days before she called Charles to say yes. She didn't know what she was getting into, she only knew it was a chance to be financially secure and do something she enjoyed.

Charles was a widower with no family at home, only Charles and the servant staff. The staff had been chosen carefully. All knew and shared Charles' tastes for sex and knew how he wanted them to act.

The chauffeur, Linda, was a girl of ample build and great sexual ability. She had a husband named Bob who agreed and accepted Charles tastes in sex. Bob was the butler and general maintenance man for the estate. They lived over the garage which was attached to the main house via an upstairs hall. Linda could quickly and privately get to any part of the house.

Linda and Bob had been in the escort service so she knew the ropes well. Charles had pull her off the street, given her defensive and pursuit driver training and marshal arts defense training. She was in charge of the garage and all six vehicles. Nobody touched a vehicle without her permission and no one touched the one that brought one back damaged. Linda was also Charles' assistant and often sex partner. Linda had very sexy uniforms. In the winter she wore black hose, a black uniform with hot pants, tight hot pants, white blouse, a jacket and driver's cap. Her blond hair was always done to perfection, either long over the shoulders or in a plate or bun. She wore short, black leather boots. In the summer, the uniform was almost the same except it was white and of a very light material. In summer she wore no hose and seldom a blouse. The cap and shoes were white. Oh!, she seldom wore underwear.

The Cook, Gregory, was really a chef. He had held jobs in some great restaurants of the world but now in his later years, and with no family was grateful and indeed enjoyed cooking for the Henry estate. He was a big man in his late sixties with a great physique who still worked out in the weight room.

There were three more women on the staff, all in their thirties. All well endowed, with good figures. One was a black, Mira, who assisted Gregory and specialized in pain training. One was a blond Swede, Angie, who was in charge of physical fitness and one was a Chinese named Chin-Li who helped run the estate and assisted in sex training. None of them were currently married. So much for the staff. We will learn more about them as the story unfolds.

Charles sent Linda to fetch Anna on the same evening she called to accept. Chin-Li went along to help her pack and bring all her belongings. They arrived at the estate about five, just in time for dinner. Dinner at the Henry estate was for everyone; Charles at the head of the table and all the staff this occurred every day except on the rare occasions when Charles' children were in town or when Charles held a special dinner for guest, something he did often.

Gregory had dinner ready when Linda arrived with Anna. Bob, Chin-Li and Linda moved her into her room. After all had freshened up, they met in the dining room for dinner. Gregory was great as usual. He had prepared grilled salmon with a special wine sauce. It was superb. Charles complemented the chef and suggested that all meet in about an hour and a half in the drawing room and all get acquainted with the new member of the family. This would give everyone time for a bath and fresh cloths after the day.

At about nine, all gathered in the drawing room, a large room with paneled walls, thick carpet and a lot of over stuffed furniture. One wall was equipped with a

large screen TV and one with electronic equipment. The room had a high, beamed ceiling with rings and hooks in the beams.

All went around the room and introduced themselves with a little history of their lives. Everyone was dressed in very skimpy, casual cloths except Anna and she had on a pair of white shorts and a "T"shirt. Linda had on only a knit halter and a knit bikini. The others were dressed the same. The men wore shorts and "T"shirts.

After the introductions, Charles asked Anna to undress and let us all see you. Anna looked a little surprised so Linda stood up and took her halter off as did Mira, Chin-Li. and Angie. It was quite a sight as all four were quite well endowed. At this, Anna removed all her cloths. Anna, age 32, about five feet and about 125 lbs had large breasts that sagged somewhat, a little too much in the hips and a bit of a fat stomach but was very sexy.

Once she was naked, Charles had her go around the room and let everyone feel her all they wanted. We need to get really acquainted, he said. By the time she got to Charles, he had his cloths off and a pretty good erection. All the others had gotten Anna pretty hot too. Anna reached for Charles, took him into her throat then he took her on the carpet. When they finished, the others were having a good time on the floor also. There were not enough men to go around so several of the women were playing with each other although there were no Gays in that house, only adults having fun with each other.

The next morning, about eight, Anna was awakened for breakfast. Again everyone was gathered for the meal but this time in the breakfast room of the kitchen. After a breakfast of eggs, grits, pancakes, bacon and fruit, everyone went to do their chores. Charles took Anna to his study for a discussion of the rules around the house that she would be required to follow. He explained that as a sex slave Anna must do everything she is asked to do by anyone Charles tells her to obey. This may mean things that are painful. She will have to undergo rigorous training, in pain tolerance, in obedience, physical training, all her orifices will be used and enlarged. She will be trained in how to completely please a man and a woman. Most of this will be done here by either his staff or experts Charles will bring in. She may be sent to other cities of the world for special training. Charles may have her marked, pierced or branded but never too extreme. In return, Anna will be furnished all her living expenses including all medical expenses when needed. She will be given the free use of the chauffeured cars and the use of a credit card. She will be paid \$500 a week, a sum that will be deposited into her account. In addition, if she stays five years or if Charles should die before that, she will receive an annuity that will pay her \$50,000 per year for the rest of her life. She may leave at any time but to collect the annuity, she must stay five years.

Charles gave Anna a document to sign summing the agreement and told her she may have a lawyer look at it if she wishes. Anna thought for a moment. Thought of the opportunity for life long security and signed the contract. "Good" said Charles "Now we can get started with your training. Charles gave her a schedule, it started with physical training. He told her she would be trained by Angie the fitness trainer for all the staff. She could if she wished, join the staff for a jog at seven in the morning before breakfast. Her gym sessions start at nine and go till Olga says stop. This will be your schedule for about two weeks. The afternoons can be used to swim and other recreations. There will be different items to do each day. Tomorrow, you are to go to the doctor for a complete physical. You are not to eat after midnight. Linda will take you at 8:30 in the morning. Angie also dose waxing. You may noticed, all the girls have no hair on their bodies. That is

Angie's responsibility. She will wax you this afternoon. Go see her when you leave here.

A few days after the results of the physical came back to Charles, he call Anna into his study. He told her to undress which she did. She stood before him and he slowly ran his hand over her breast, her buttocks, her stomach and thighs then he told her he wanted to have some plastic surgery done on her to improve her figure. At this Charles call Linda on his intercom. In a few moments, there was a tap at the door and Linda came in. Charles asked her to remove her cloths and she did. He told Anna to look and feel Linda's breasts, stomach and thighs. "She has had the surgery I am going to have done on you. Linda nodded yes. Anna said " She has a beautiful figure." Well that's how good yours will be if you agree. Anna said "yes-great, I have always had a problem this will be great." " After you are over the surgery, you will have to work hard with Angie to get like Linda." Anna agreed. Now Charles asked Linda to show Anna all her piercing. Anna had noticed the ones in her nipples but not all. Linda took Anna's hand and put it on the ones in her labia, clitoris, navel and showed the one in her tongue. Linda didn't have her jewelry in so the piercings were not real noticeable. Charles pointed out the he wanted the same for Anna with a little addition. She was going to have larger holes in her outer labia, ones large enough for a padlock. Anna gulped and said OK. Good, it will all be done in the hospital so they all can heal at the same time. You will not be having sex for a few weeks." "And while I am thinking, what kind of birth control do you use?" Anna answered, "The pill." "Well I think we need to be a little more securer. I'll have the doctor do a microscopic tubal ligation on you then we won't have any worry. If you leave at some future time and don't and want it, I'll have it reversed." Anna just stared but them smiled. Linda said she had had one.

And so the next day, Linda took Charles, and Anna to see Dr. Schwartz, a plastic surgeon friend of Charles'. Linda came in with them at Anna's request. The doctor had Anna undress before a Video camera. He took pictures of her and fed them into a computer. With his computer, he showed them what she would look like after he did his magic with the knife. All were very pleased. Charles told Anna that she should show her graciousness to the Doctor. At first she didn't understand but Linda whispered in her ear so Anna went over to the Doc, unzipped his pants and took him into her mouth. Soon he was very large. He got up, removed his pants, placed Anna over the table and entered her from the rear. While this was going on, Linda and Charles relieved each other. They all dressed and returned to the estate. The surgery was scheduled for Monday, three days away.

The day of the surgery, Linda took Charles and Anna to the hospital, a private one run by Dr. Schwartz. After Anna was taken to the operating room, Linda and Charles went to the observation window to watch. Dr. Schwartz started with the breast. He carefully marked where the cuts were to be made the took the scalpel. He made a cut around the aurora and down the front, then around the base of each breast. He pulled the skin until it was tight and in the shape he wanted, cut of f the extra and stitched it back. Anna was left with tight, upstanding breast and a fine row of stitches around the auroras, down the under part and around the base. They would not show in a year. Now he took a large needle and passed it through at each nipple. He replaced it with a 8 gage ring about one and a half inches in diameter. These rings were about half way down the length of the nipples. Linda asked Charles if he told Anna they were to be that big, he laughed and said no! but she will be OK with them." Linda's response was, you didn't make mine that big." "You are not a sex slave my dear, do you want them larger, we can stretch them?" "Maybe sometime" she said.

Linda and Charles went back down to await the completion. There was a good wait

because Dr. Schwartz still had a lot to do. He had to do the tummy tuck, liposuction the thighs and add the rings. Charles had ordered several rings. Beside the lock piercing, there were the two in the inner labia, the one down through the opening and between the legs, vertically through the clitoris, two in the clitoris hood, two in the navel, and one in the tongue. That last will be done after she is in her room and awake. This girl will be well pierced. Linda only smiled, she had most of them.

The talk of sex and the operation made them both hot. Charles said "I wonder if that is a good bed?" Linda said "Let's find out." She sat on the bed, Charles took her jacket and hot pants off, she had no underwear as usual. Linda lay back and let Charles give her a good tonguing from toe to head with much emphases on the pubic area. Linda climaxed just with this. Now Charles got on the bed, Linda took him deep in her throat until he was hard then she sat on him and brought him to climax. Again she came.

In about two hours, Anna was brought back to her room. She was still nude but bandaged from her neck to her knees. She spoke a little groggily but seemed in good spirits. You will be very sore for a few days maybe a week, said Linda. I was. "Yeah, you got over it and was getting very feisty in about a week", said Charles.

The doctor came in, greeted Charles and Linda warmly then talked to Anna. He told her what to expect and that if all went well, she could go home in four days. He said he would be in and do the tongue piercing in the morning. Anna was not too sure of this but again, Linda assured her it was not painful, "besides you have to learn to tolerate pain. Most masters would have done all these piercings without even a sedative."

At this they started to leave but Anna asked them to stay a little longer. She wanted to talk to Linda, so Charles went out with Dr. Schwartz. Anna asked how and how long she had known Charles. "Well that's a long story. Bob and I were running an escort service, well Bob ran it and one other girl and I did the work. I also worked in a nude club some but like you, my figure was not really good enough. That's when I met Charles. He had asked for a girl and I took the call. We got along famously, everything he liked I liked so he hired me. The first thing he did was just what he did for you, he had Dr. Schwartz redo my figure. I had been overweight so, my breasts were large and sagged, my hips were too big and my stomach was sagging. When Dr. Schwartz got through with me, Angie whipped me into shape and has kept me there. A few months later, he asked if I would like to do something besides sex. I was dancing at the time and bawling Charles or anyone he wanted me to, so I said sure, what? Be my chaffer. This took me back. I was a good driver but that limo is something else. Anyway, he sent me to driving school including pursuit driving and defense driving and he sent me to Judo school. I still go to Judo once a month just to keep in sharp although Angie does a great job." Anna asked, "Does it bother Bob that you have sex with anyone you wish?" "No, we have a very open relationship and have since we met. You see, I was a prostitute when we met."

In five days, Linda brought Anna home. As soon as they arrived all the staff were out to welcome her. Angie came out picked her up in her arms and took her to her room. Soon Olga had her up and on the patio showing everyone her stitches, or where they had been. Dr. Schwartz had removed them just before he released her.

In no time, Anna was bouncing around the house and Angie had her started on an exercise regiment that got tougher and tougher. In three weeks Anna was healthy enough to have sex and in four weeks, her piercings had completely healed.

For this occasion, Charles had prepared a little party. He had invited a few friends, who had sex slaves, over for the occasion. They brought their slaves with them, of course. It seems there is a club of people with like taste in this city and Charles is sort of the unofficial leader, anyway, he has meetings on occasion at the estate in the large drawing room. For this occasion, Anna was given some beautiful jewelry for her piercings. Linda showed her how remove the rings used for healing and put the jewelry in. There gold rings about 4 inches in diameter. closed with a jeweled clasp for her nipples. For her navel Linda threaded a chain through one side, around her waste and back through the other. The ends were passed down to the clitoris, through each side of the hood down through each inner labia and out through the hole between her legs and up past her anus to attach to the waste chain. Now a gold padlock was pushed through both outer labia and snapped shut. She was given a body makeup by Mira to hide the still visible scars. Anna had been spending as much time as possible in the sun getting a tan so with the makeup she looked great.

All the girls had piercings of some kind and they had jewelry for them. Mira was a beautiful black, great figure and very dark skin. Her jewelry was large and silver. It shown brightly on her nude body. She had heavy chains from her nipples to her navel, and around her waste and down to her clitoris.

Olga was a tall, powerful, blond with a great figure. She had slim thighs, hard buttocks a flat stomach and round, smooth breasts that stood up. The nipples had been fitted with gold "dumbbells" with diamond studs in the ends. Chin-Li's body was small, smooth and beautiful with small, well rounded breasts each fitted with a silver snowflake held on with a silver pin. She had a beautiful tattoo back piece of a lion in the jungle. Her public area had a butterfly tattoo. The wings went out on her thighs and the body was tattooed on her labia. The effect was great.

The night of the party there was to be an opening ceremony and Anna would be initiated into the group. Anna asked if the other girls had been initiated, they all answered that they had but as members not as slaves. Anna gulped and asked how bad it would be. Linda told her not to worry too much, she was still a novice, she had had no training yet and would not be expected to take too much.

After all the introductions were out of the way with Charles welcoming and introducing everyone, the program started. First was a simple pain demonstration. The master was a tall, well figured brunette, with heavy breasts held in a leather halter and a wide leather belt. Nothing else. Her slave was a petite blond. She attached her slave to the floor loops by ankle bracelets and fastened her wrists to a bar about three feet long. The bar was lifted to the ceiling by on of the winches. The slave was now fastened tight, stretched by her arms and legs. The master removed the rings from her clitoris, navel and breasts and took out a whip. She began to whip the slave. slowly on her back, leaving little red marks. She continued to her breasts. The girl yelled when the whip first struck her left breast. Her master asked if she wanted a gag. The slave said yes, I think so. The master placed a ball gag in her mouth and fastened it in place then whipped the girl all over her breasts, stomach, clitoris, labia and legs. When she stopped, the girl was red all over. Everyone applauded.

Angie went to the platform and took the girl down. She almost collapsed so Olga took her in her arms and carried her to her gym. There she massaged her with oil of wintergreen then placed her in a whirlpool. She later rubbed her down again , toweled her off and placed her in a bed for the night.

Now came the opening . A table much like a doctor's examination table was placed

on the stage. The girl to undergo the opening was led to the platform by her master. Chin-Li came to the platform. The girl was placed on the table and strapped down with her feet in the stirrups and her legs wide apart for all to see. The master had removed his pants. Chin-Li took him in her mouth and deep throated him to an erection. He stepped up to the table, entered her vagina and pumped then entered her anus and finished leaving a large ejaculation. He withdrew from the stage and Chin-Li took over. Chin-Li took two stretching tools one large and one larger. With a glob of jelly, she thrust the smaller into the girl's ass. She almost screamed. Chin-Li slowly spread it open. When it was full open Chin-Li took the second larger one and did the same to her vagina. Now the girl was open but not just yet. Chin-Li slowly rotated the spreader in her vagina. She started to scream. Chin-Li asked if she wanted a gag. She said no. Then be quiet or I'll gag and whip you, Chin-Li said.

Chin-Li continued to slowly pump and rotate the spreader until she pulled then out without closing them. The girl was visibly in tears but she didn't scream. Now Chin-Li lubricated her hands and started working her fingers into the girl's openings. She kept it up, first three fingers, then four then five then her whole hand. Now Chin-Li fist fucked her until she had two hands inside her vagina. When she finished there, she went to her ass and did the same only with only one hand. Now Chin-Li put one hand up to her forearm up the girl's ass and the other up her vagina. Chin-Li withdrew and everyone applauded. Again Olga had to carry the girl out for treatment.

A table with several branding irons heating in a small charcoal pan was brought out. Now it was time for the initiation of the new slaves. This meant that the master would mark his slave in front of the group. The first was a young brunette. Her master led her to the stage and put her in the stirrups. He took her inner labia that was of fair size and clipped with a crimper a loop of stainless steel through it. She let out a shriek. He took a hook and stretched the labia as far out as he could with the loop then he selected his branding iron that was now red hot and held it to the girl's skin for a full second. She screamed. He released her and Olga took her back. This was done to two more and now it was Anna's time. Charles came up with Anna in tow. He placed her over the table with her ass in the air. He took his red hot iron from the charcoal, held her tight and branded her on the side of her right buttock. Anna didn't scream, she took the pain. Olga, Linda and Mira all took Anna back to the gym for first aid and she came back out with all but the first two girls. They were asleep and would stay the night.

The next morning everyone was at the breakfast table including the guest. Charles asked how they felt this morning and both said fine howbeit a little sore. Anna was fine; her brand had a small bandage but nothing else. After breakfast, Charles had the two girls undress so he could inspect for any damage. He and Olga carefully explored every inch of their bodies, including the insides of the vagina on the one who had been opened. They pronounced them fit and Linda took them home.

After Linda returned, Charles called everyone into the drawing room to a meeting. The meeting was to set the training schedule for Anna. Charles spoke. "Now that Anna has been initiated into the sisterhood of sex slaves, we must, in all fairness to her, start her training in earnest. I will introduce each of you and ask you to demonstrate your specialty. When we leave Anna will know exactly who is responsible for what and what to expect. First Olga will be in charge of the overall schedule and training. She will see that a schedule is set and adhered to, that goals are set and met. By the way, we will have another slave to train in a few days along with Anna. Lea, she belongs to George and he has asked me to see to her training for him. He travels a lot and has neither the

time or the capability. We have done this before, Anna."

"Now for the trainers. First Linda will be in charge of throat training; please demonstrate your abilities." Linda removed her blouse and shorts, took a long tube with an electrical cord from the corner, plugged it in, it was a neon tube, it glowed. Now she put the tube in her mouth, tilted her head back and swallowed it like a sword shallower. The glow showed through her stomach. The lights were turned out and she glowed brightly. Linda removed the tube. "Now you can see that this talent can be very useful with a man."

Next Chin-Li will teach you the art of vaginal muscle control. Please demonstrate." Chin-Li removed her shorts, went to the sideboard and returned with a bottle of coke, a bottle of wine and an empty beer can. First she squatted down, placed the capped end of the bottle into her vagina and stood up holding the bottle. Next she took an empty wine bottle with no cap and did the same. Now she took one filled but without a cork and again picked it up although it took her two tries. "It's harder without a cap to hold on to" she said. Now Chin-Li lay on the carpet, put the empty beer can into her vagina, no small feat in itself, and with her vaginal muscles, crushed the can.

"Chin-Li will teach you to control your muscles. She can bring a man to climax without any body movement." "Linda ask Bob to come in?" In a minute or two, Bob arrived. "Linda, take his clothes off and get him up." Linda undressed him and took him all the way to the balls into her mouth. "Good, now Bob, you lay down and Chin-Li, you sit on him and bring him to a climax." Chin-Li took him into her vagina and started working her muscles. You could see the muscles in her lower abdomen working. In a few minutes, Bob shook with pleasure. Chin-Li got up dripping with Bob's semen.

"You see. I want you to learn to do that."

"Now that leaves Mira. Mira is going to teach you to tolerate pain." Mira took off her dress, picked up the wine bottle, lubricated the bottom end and sat on the bottle, forcing it into her ass. She kept pushing until only the neck was protruding. Mira stood up and walked over to Olga, bent over and Olga pulled it out. Now Mira went to the cabinet and returned with a leather whip. She gave the whip to Olga who proceeded to whip her on her back, butt, breast and between the legs. She kept it up without a whimper from Mira until Charles said "enough." Anna sat in almost a trance. She was a little weak in the knees after that last demonstration.

"Now for Linda again. Call in Bob and Gregory. Linda is going to teach you how to fuck in almost every way possible." Bob and Gregory came in and removed their clothes. Linda took Gregory in her mouth and asked Olga to get Bob up. Olga did the same. Linda had Bob lay down on his back. She took him in her vagina with her ass in the air, now Gregory put his ample member up her ass. Linda stopped before they climaxed and turned over on her back on top of Bob. This time Gregory put his member in on top of Bob. They pumped until they climaxed leaving semen running down Linda's legs. Linda had them both in the same orifice. "With practice and training you will be able to do all this. Anna!"

"Linda had one more talent, she has an enlarged bladder. When someone wants a golden shower, she can do the job. Please demonstrate." Anna had not noticed the small jewel in Linda's urinary opening. Linda got a large punch bowl. She placed it on a low bench, spread her legs, pulled out the jewel which was a plug and filled the bowl with what to Anna was an enormous amount of urine. "It takes a long time and lot of practice. I learned the technique in Thailand."

"Linda is in charge of one more phase and I think the most important. She is

going to teach you to enjoy every aspect of this training. When she finishes with you, just the thought of someone performing any of these acts will make you climax, I promise. It is then that you will not want to leave. Am I right?" All the girls agreed whole heartedly.

The girls took Anna into the gymnasium undressed her and put her on an examining table. Chin-Li put her in the stirrups and strapped her down. Anna looked horrified. Chin-Li said not to worry, I am only going to see how big you are now. And I am going to see how sensitive your clitoris is said Linda. And I am going to determine how sensitive you are to pain, said Mira. Anna looked at Angie who said, I'm just here to be sure they do their job. They all laughed. Now Chin-Li started inserting plugs into her vagina. She started small and kept increasing in size until Anna made her stop. You are good size now but we still have a long way to go to be able to play in this league. Now she did the same thing to her ass. Chin-Li didn't get very far there. We are going to have to do a lot of work there.

Now Linda started very lightly rubbing her clitoris. As she did she slowly inserted her fingers into Anna's vagina until she had two fingers massaging Anna's uterus. Anna started to respond. Linda kept it up. Chin-Li massaged her breasts. Mira gave Anna a deep kiss. Anna started to respond in fact she got hot. The girls kept it up until Anna shook with a climax.

They let her up and Mira strapped her on her stomach over the table. She took a leather whip and began with gentle licks that built until Anna screamed. They let her up. Angie said "You have a long way to go there. Do you think you can take the whipping Mira gave that girl the other night?" Anna shook her head no.

Well you will learn to take more. There are several rules you will obey at all times from now on..

One- you will not wear underwear unless Charles tells you to.  
Two- you will do anything Charles or any one of us tell you too.  
Three- you will sit with your legs apart so that you always feel your labia open and ready.  
Four- you will not look anyone in the eye unless you are told to.  
Five- you will wear only the mini skirted dress furnished for the training. They are short with buttons, zippers or just a belt to hold them closed down the front so they can be easily removed.  
Six- you will perform any sex act asked of you by anyone in this house, this includes obeying any direction to do the same for a stranger.

These rules will be enforced by Angie. These rules will be in effect until Charles releases you from them."

"Now Chin-Li has some orders for you. Here are two plugs, one for your vagina, and one for your ass. You will wear them at all times except when they interfere with something you are told to do. I will be changing the size from time to time. You may remove them when asked but always put them back as soon as you can. I will put these in for you now." Anna got back in the stirrups and Chin-Li inserted the largest plugs she could get in. "When you get use to these we will make them bigger." The plugs were made so they would snap in and not come out easily.

That evening Anna went around the house with her mini skirted dress and no underwear. She was learning to sit with her legs apart. It felt very sexy. She was beginning to get the picture of what she had gotten into. At this point she

was still a little apprehensive.

About nine, Bob came into the room where most of the others were watching TV or reading. He noticed Anna and told her to come over. She obeyed. He said, take off your dress, she obeyed. He had her bend over and he removed the two plugs then he had Anna to remove his pants and take him in her mouth. This she did. Before he came, he had Anna sit on his lap and bring him to a climax. When he was through, Anna wiped herself and put the plugs back in though it was not real easy for her to do by herself.

All the others including Linda watched as this was going on. When she finished Linda removed her shorts and had Anna to come over and orally bring her to a climax. This seemed like a good idea to the others so they all had her in turn including Charles and Gregory. A fitting first real evening to her training.

The next morning, Anna was up and running with the girls. After breakfast, all had a swim and then Anna was assigned to Mira for her first pain session. Mira took her to the gym and fastened her to ceiling ropes and floor loops by leather anklets and bracelets. Mira had her spread eagle. She took the wench control and tightened the ropes until Anna screamed. Mira did not let off but left the ropes tight. Mira took a leather whip and very deftly and without making any lasting marks, whipped her back and buttocks until they glowed red. Anna screamed until Mira gaged her then she wept. Mira took out the gag but left her suspended for two hours. Angie came in and massaged her back with wintergreen lotion to prevent any bruising. Finally Angie took her down and put her in the whirlpool. After that she gave her rubdown and it was time for lunch.

After lunch, Angie took Anna back to the gym and gave her a strenuous workout on the equipment. After this and a swim Anna was exhausted. She went to her room and slept till time for dinner. After dinner, Chin-Li put her in the stirrups and used her stretching tools to get larger plugs in. Linda came in and using a surgical tool, removed the first layer of skin from Anna's clitoris to improve sensitivity. She was very carefully not to go below the first layer so as not to cause any scar tissue. Anna finally was allowed to take a shower and go to the drawing room with the others.

Linda decided to continue, she had Anna come to her. Anna removed her dress. Linda lay her on the carpet and with her tongue brought Anna to a climax. "I just wanted to see if the surgery worked." It did. Anna laying there naked made Bob hot so he removed the plug and took her. He asked Chin-Li if he could use her ass but Chin-Li said "Not yet." Again Anna climaxed. She was learning.

The next day Chin-Li took Anna for a session after breakfast. Its time it was muscle manipulation exercises. The plugs were removed and Chin-Li put her fingers in Anna's vagina. "Now squeeze. Make like you want to pee. Push hard." Soon Anna had the technique. Now you have it, we must develop it. She put a two inch rubber dildo type device attached to a sort of counter in Anna and said "Squeeze" "Harder you see the dial, make it go as high as you can Practice is the only way." "Now practice for the next hour." Chin-Li left leaving Anna strapped to the table practicing.

Chin-Li came back and looked at the meter that recorded the number of times and the intensity. Anna had done good but her abdomen muscles were getting very tired. She would be sore in the morning.

That evening, Charles had some friends over, seven men. They came for dinner, a formal dinner in the dining room. Only Charles and his guests attended, the staff preparing and serving the meal. After dinner, Anna was asked to attend. Linda

and Mira went in to prepare Anna for the occasion. They bathed her, removed the plugs she was wearing in both orifices, and put all her body jewelry on. Then Linda chose an exquisite dress. It was white, very thin silk. The skirt stopped above the knees. The top had one strap over the left shoulder but leaving the right breast exposed. The dress was a sort of wrap around with a tie around the waste. Untie the tie and the dress fell off. Anna wore only the dress and the jewelry in her piercings. She wore gold slippers.

Linda wore a similar dress but in red with gold trim. Mira wore the same as Linda. Linda took two gold chains about four feet long and clipped one to each ring in Anna's clitoris hood. One for Linda and one for Mira.

Linda and Mira led Anna down the stairs and into the drawing room to the guests. Anna came in with her eyes down as directed. The sight was electrifying. Chin-Li and Olga were dressed in very short skirts and off the shoulder tops again exposing one breast. None wore any underwear. Angie and Chin-Li were serving the guest drinks and cigars.

Charles took the leash and led Anna to the center of the room. He pulled the knot on her sash and Anna let the dress fall to the floor. A slight gasp could be heard. Linda even gasped. Charles unhooked the chains from her clitoris hood. He took the key to the padlock and gave it to one of the men. Anna went to him and he removed the lock. He had Anna open his pants and suck him, then he had her sit on his lap. She took all of him and he ejaculated into her.

The next man asked if he could whip Anna. Charles looked at Mira and Mira said, "No! I will whip her. You may whip me if you wish. Anna is still a novice. I know her limits." Charles said, "You heard the lady and she is the trainer." The man said "OK I'll whip you." At this, Mira dropped her dress and removed the silver snowflakes from her breasts and the rings from her navel and clitoris. She asked how he wanted it. She offered him a variety of whips, he chose one with three thongs. He said he'd like her tied to the overhead. Linda did the honors. Leaving Mira hanging to the overhead ropes by her wrists and attached to the floor by her ankles. "Is this satisfactory?" Mira asked. "Very much so." Was the answer.

The guest removed his jacket, shirt and pants. He was wearing black leather shorts that molded his firm buns and pubic area. He had a great build, Linda was drooling. The guest took the whip and with great force began to whip Mira. He continued on her back and buttocks until it was covered with marks then he started on her front. First her breast then her pubic area, inner thighs and legs. He kept going until Mira passed out. Mira never said a word during the whipping. Linda and Olga took her down and revived her. In a few minutes she was up and smiling. "Now do you want me to whip Anna?" "No!" was the reply. Angie took Mira out and gave her a wintergreen rub but she returned in about fifteen minutes. Meanwhile, a third guest had asked to fuck Anna in the ass. Chin-Li inspected him and approved. He asked that she be strapped over a table, Linda brought one and she and Chin-Li strapped Anna down with her ass in the air. The guest was fairly tall so they put a large pillow under her stomach. He took off his shirt and pants revealing a great physique and again leather shorts. He dropped his shorts and took her violently. She let out a yelp when he entered but otherwise kept quiet. In a few minutes he filled her butt to overflowing and withdrew. He went to her mouth and made Anna lick him clean.

Angie and Mira returned with Mira looking like nothing had happened. Linda went over and sat beside the guest that had whipped Mira. He was still wearing only the leather shorts. She put her hand on his crotch, brought out his penis and found it had a Prince Albert dumbbell piercing through the head. Linda nearly creamed

right there. In no time she had him down her throat. After a few good strokes they retired to the floor with him deep in her cunt. He spent himself well in her but Linda didn't let him rest long. Soon she had him in her throat again and this time in her ass. It took him longer this time but it was good. Linda must have come five or six times. This guy really turned her on.

A guest asked Charles about Linda's ability to give large golden showers. He wanted Anna to have one. Charles told Linda to prepare herself as soon as she could. Linda went to the sideboard, took out a gold catheter and inserted it into her urethra. She went out and came back with a jug of distilled water and a large syringe with a tube attached. The guest asked, "Why not use wine?" Linda look at Charles. Wine makes her a little drunk. Charles said "Why not?" So Linda took out a bottle of white wine and proceeded to inject it into her bladder with the syringe through the catheter. She continued til the bottle was empty then took a second. In all she took nearly two liters. Now she had Anna sit on the floor and look up at her pussy with her mouth open. Olga and Chin-Li had placed a plastic sheet on the floor. Linda pulled the catheter out and peed all the wine into Anna's mouth and all over her. Anna swallowed as fast as she could but it ran all over her.

Now a guest wanted Anna whipped. Every slave should be whipped, he said but Mira could do it. So Mira strapped Anna into the rigging, tightened the ropes and whipped her until she was glowing red. Anna almost passed out but had learned how to take it a little better since the last time.

After some time all the guests had gotten their fill of sex with at least one of the women, Charles suggested they all take a swim and then a shower before they left. While the guest were swimming and getting showered with the help of Linda, Angie, Chin-Li and Anna. Mira and Gregory were preparing a gracious buffet for a late snack.

Every one gathered in the dining room for the buffet then went into the drawing room. Charles said that we had seen all the girls preform in one way or the other except Angie. Now she would entertain us. Angie came into the room nude except for the decorations on her breasts and navel. She started a gymnastic routine, tumbling, splits and contortions that would put the best to shame but with Olga it was very erotic. As soon as she had finished two of the guests asked for her at once. Charles looked at Angie and she said, "How about I take you both at once." Anna's eyes widened. Angie had one lay on his back. Linda came over and with deep throat, brought him to a great erection. Angie took him in her ass and lay back on top of him. He reached around her and took hold of her breast. Chin-Li had the second hard and he entered Angie's pussy from the front. They all pumped to climax. Before the night was over all had had their fill of sex.

The next morning at breakfast, Anna asked Mira how she could take a whipping like she was given last night. Mira smiled. Linda looked at Anna and said, "You don't know do you? She was enjoying every bit of it, every lash. Mira didn't pass out not from pain but from pleasure, that was a very intense climax. That's what you need to learn and we are going to teach you."

A few weeks later, Gloria, a female master, brought her male slave to the house. She and Charles talked for a while then all of the staff were called in. "John is going to be with us for about a month, Gloria is going out of the country on business and can't take him with her. She has to meet with and entertain several men and John would be considered competition. She could leave him at home but she felt he would be happier with some company and she thought maybe you would like to have an extra man around that you could use and abuse." "Linda will be in charge but she will share so all enjoy I am sure. And so Linda had another

responsibility. She is second in command to be sure.

John came in and introductions were made all around. John had on a light jacket. Underneath he was wearing leather shorts molded to his body including what seemed a large pouch for his penis and scrotum. Gloria made a few comments to the group before she left. "John loves to be whipped. He will come if you do it right. He is very virile, he can fuck for seemingly hours. I have had his equipment altered. Take of your pants, John." John took off his leather shorts revealing a large penis with a Prince's wand inserted in it held in place by a Prince Albert piercing. The wand was about six inches long, three eights inch in diam. at the small end and over half inch at the tip with a three quarter in drain plug. The thing made him quit large, particularly with an erection. The girls looked in aw. None had ever seen such a thing in a man's penis. Gloria had him remove his jacket, he had on no shirt. His nipples were pierced with 8 gage rings two inches in diameter. They all admired him. He had a beautiful build. He was a true male sex machine. Gloria told John to do anything Linda or Charles ordered. He said "Yes Mam." Gloria and Charles retired to his room for a while leaving John with the girls.

Linda had his things placed in a room off the hall with the other girls and not too far from her apartment. Convenient to all. She ordered him to obey all of them, including Anna. They were all drooling by now. They had a sex toy they all could enjoy. Linda, being the senior, had him first. That night she spent most of the night with him. Linda wanted try out that Prince's Wand to see if it worked as good as it looks like it would. She removed the drain plug from the wand and tried to deep throat it. John got really big with that thing in. After a little practice, Linda had him down her throat. She kept it up until he came. The semen almost drowned her. The experience made Linda so hot she climaxed. Now she wanted him in her. John said he couldn't fuck with that one in. It is stainless steel and will not bend. He took it out and replaced it with a rubber one that was soft and would bend. After a little rest, Linda had him up again and all in her deep. John could hold an erection for a long time and he did. Linda came three times then made him go up her ass. That was almost a mistake. He was more than she was used to but she took him and climaxed again before he came in her ass. All in all, Linda had a great time and was sore the next day. She would remember John for a long time. The other girls had similar experiences accept Anna. She was to have John in the drawing room before everyone. Charles call all into the drawing room. He and John were already there. He asked Anna to step forward and remove her dress. She went to the center or stage area of the room pulled the bow on her min dress and let it drop to the floor. Linda and Mira removed the plugs from her privet entrances and put the leather bracelets on her wrists and ankles. She looked very erotic.

Charles announced that John was going to have his way with Anna today for all of us to see. With that, John came forward, picked Anna up and held her up so his penis was at the entrance to her vagina. Mira fastened Anna's wrists to the ropes hanging from the ceiling. He was wearing his rubber Wand. Mira sucked him to an enormous erection. With the wand in place, John was nearly two inches across and nearly eight long. He went to his knees and tongued Anna until she was dripping with desire. Now he took her bu the hips, inserted the tip of his member into her and pulled her to him. Anna let out a gasp as it slid home, hitting bottom before it was all in. Now he swung he back and forth, in and out, until he was all in. Anna was both in pain and pleasure. He with drew. Turned her around and with the aid of some lubricant inserted it into her ass and with one quick pull, shoved it home. Anna let out a little scream. John kept the motion up til he came. He with drew leaving semen dripping from Anna's ass.

John looked at Charles and asked if he should proceed. Charles said for him to go on.

Now Mira fastened Anna's feet to the floor and tightened the ropes til she let out a gasp. John took a leather whip and began to whip Anna. He did it expertly, slowly building , over her back he belly, her pubic are her legs her breast and finally her vaginal area, with this Anna shuttered let out a scream and fainted. Anna had finally reached a climax from pain. She revived quickly. Mira and Linda took her down and, Angie took her in her arms back to the gym where she gave her a wintergreen rubdown and a whirlpool bath. Charles came in and told her that she had made the grade, she no longer needed to wear the plugs or the mini dress uniform, in fact Linda and Chin-Li would take her shopping for a new wardrobe.

A few days after John went back to Gloria, Charles called Anna and Linda into the study. He asked Anna to drop her dress, which she did. He took both breast in his hands and squeezed. Then he had Linda pull on her nipple rings. Anna took it without a word in fact the pain sort of excited her. Charles said "I think it is time to stretch out those nipples so we can add some nice jewelry. Anna was puzzled. Linda went to the desk and brought out a little box. Charles pulled one nipple as far as it would go using the ring. Linda took a little device that fit around the nipple, and when in place pushed back on the breast and out on the ring stretching the nipple. They did the same to the other. Now you wear these until those nipples are about an inch or two long. It won't take long. Linda will change the stretcher as needed.

Sure enough, in about two months, Anna's nipples were over an inch long. Charles asked every one into the gym. Dr. Schwartz was there. He had Anna strapped to the examining table. While all watched, Dr. Schwartz removed Anna's nipple rings. He swabbed her nipples with betadine. Anna looked startled, she had no idea what was to happen. He inserted a special tapered rod into the hole and with the aid of a lubricant. He stretched the hole size to twice it's original. Anna flinched but kept quiet. The Doctor took a needle and pierced a hole into the end of the nipple down to the rod. He used a special curved ring smaller than the hole and inserted it into one side of the nipple and out through the center, then he add a second on the other side. When he finished, Anna had two rings in each nipple going in the center and coming out one on each side. These will be kept in until they heal then we can insert studs into the ends. Finally Anna knew what was being done to her. Now he took the needle and put a 10 gauge ring through each nipple at it's base. In a little into the areolas. These were to be used to hold jewelry.

In a month, Anna's nipples had healed and it was time for the new jewelry. Every one gathered in the gym for the insertion. Again Anna was put on the table, nude. Linda removed the healing rings, placed a silver snowflake over her areolas and pined them in place with a pin through the piercing. Now she took a little platinum rod with a small threaded hole in the middle. She pushed it through the hole in the tip of the nipple and aligned the hole with the piercing from the end. Linda took a special platinum stud with a diamond in the end , pushed it into the end of the nipple and screwed it into the horizontal bar. Now Anna's nipples stood our about a half inch or more and were tipped with diamonds with a beautiful snowflake over her areolas. She looked very beautiful and erotic.
